

RECENT UPDATES TO OUR TRAINING PROGRAMS:

We have developed a new training program for the Indonesian industry which aims at bringing the basics of Risk Engineering to pre-selected employees. The training program has been designed with a syllabus of 32 hours training.

Once the basics have been understood, advanced training can be initiated for selected persons.

MKB ENGINEERING NOW IN JAKARTA

We are very pleased to announce the formation of “MKB Engineering Consultants” new office in Jakarta. From our new offices we are looking forward to servicing both existing and new clients in Indonesia.

MKB - A NEW MISSION

With more than 30 years’ experience as specialist consultants, it is our mission to disseminate as much knowledge as possible to the new generation of architects and engineers involved in the design, construction and maintenance of all types of buildings, whether they be industrial, commercial, residential, or mixed use.

MKB ENGINEERING AND REGIONAL EXPERTISE

MKB Engineering looks forward to collaborating with other regional consultants that are able to enhance the services offered to our clients, especially in areas that require very specialised knowledge and expertise.

A NEW FACILITY FOR Q&A ON-LINE

As part of our new mission to extend knowledge to engineering practitioners of all ages and disciplines, MKB Engineering has opened a forum for Questions & Answers which will be available every Thursday between 10.00am and 12.00am. We look forward to meeting you there!
