

RECENT UPDATES TO OUR TRAINING PROGRAMS:

In addition to our existing training programs we now offer a preparation course for those who wish to participate in the “Certified Fire Protection Specialist” exam, an internationally recognized qualification that will benefit your career in the future. Whether you are part of facility management, construction safety, fire prevention/protection practitioner, a building designer, or any other part of the “Built Environment” Engineering systems, this qualification is for you!

MKB ENGINEERING IS BASED IN JAKARTA

Following the development of our new offices in Cilandak, Jakarta South, just one year ago, we would like to take a moment to thank all of our clients both new and old, for their trust in our expertise. Indonesia.

MKB - OUR MISSION

With more than 30 years’ experience as specialist consultants, it is our mission to disseminate as much knowledge as possible to the new generation of architects and engineers involved in the design, construction and maintenance of all types of buildings, whether they be industrial, commercial, residential, or mixed use.

MKB ENGINEERING AND REGIONAL EXPERTISE

MKB Engineering collaborates with regional partners that are able to enhance the services offered to our clients, including Environmental Engineering, Diverse Modeling & Simulations, as well as full MEP design.

A NEW FACILITY FOR Q&A ON-LINE

The MKB Engineering forum for Questions & Answers will continue to be available every Thursday between 10.00am and 12.00am. (Just submit your query via the “contact us” using our email or the Whatsapp link)
